Enroll now in PII 2022

What is the Surgeon Specific Registry™ Practice Improvement Initiative (SSR PII)?

The ACS Surgeon Specific Registry (ACS SSR™) is offering a new program, the **SSR Practice Improvement Initiative (PII)**.

The SSR PII helps all surgeons to continually collect and review their case data, including outcomes data, by identifying trends, gaps, and performance improvement opportunities. Surgeons will compare their individual data to aggregated data real-time with the purpose of enhancing the quality of surgical care. Not only can this positively impact surgical patient care, but surgeons will also be able to obtain Continuing Medical Education (CME) credit.

Make surgical care safer and better

- ✓ Every patient's surgical result matters
- ✓ Outcomes quality data is available real-time
- ✓ Drive your data review effectively and timely
- ✓ Compare your individual data to aggregated registry data
- ✓ Identify trends, gaps, and improvement actions
- ✓ Reflect on your data learning experience
- ✓ Obtain CME credit

WHY?

Uses of SSR PII

- 1) Perform review and assessment of your case data continuously using SSR Analytics Reports/ Data Download Report/Benchmarking Report effectively.
- 2) Quality matters – elevate your surgical quality performance by identifying trends, gaps, and improvement opportunities.
- 3) Exchange experiences with the PII peer surgeon group led by PII surgeon moderators and collaborate safely on improved surgical patient care solutions.
- 4) Utilize PII for ABS (*American Board of Surgery*) Practice Improvement requirements.

Who can participate?

Every surgeon can participate:

- Private practice and hospital-based surgeons
- Rural and urban
- General surgeons and any other surgical specialty

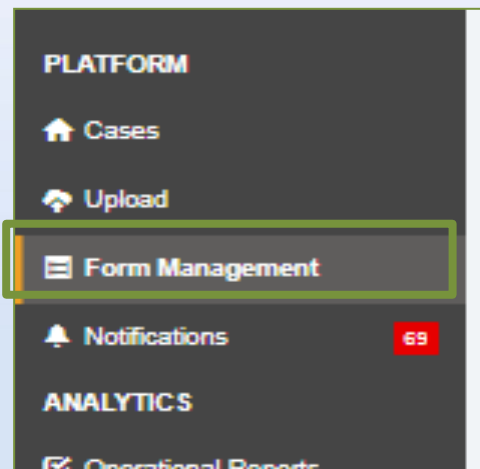

The SSR PII is developed by surgeons.

How to enroll in SSR PII 2022?

[Enroll now](#)

- Login the SSR: <https://www.facs.org/ssr>
- Click on Form Management in the SSR menu
- Click on Clinician Form
- Click on Preferences
- Under “*Practice Improvement Initiative (PII)*” choose
2022 Jan – June or **2022 July – Dec** or best choose both times

Practice Improvement Initiative (PII)

2022 January - June ☒

Enrollment Date 09 / 24 / 2021

MM DD YYYY

2022 July - December ☒

Participate in the SSR PII following the 'EASE' steps

E A S E

- 1) **Enter** your clinically relevant case data
- 2) **Analyze** your quality data continually
via SSR Analytics/SSR reports/Benchmarking report
- 3) **Share** what you have learned with your peers on the experience exchange call
facilitated by a PII surgeon moderator
- 4) **Evaluate** & identify areas to enhance your practice performance
(trends, gaps, improvement actions)

You will learn how to utilize Analytics SSR Reports/Data Download Report/Benchmarking Report.

ACS SSR Practice Improvement Initiative 2022 Timeline: Review, Reflect, and Learn with EASE

- A new cycle will begin June – Dec 2022
- Continuous participation is possible
