Health Starts at the Tip of your Nose

Introducing NasoClenz
An antiseptic cleansing kit designed especially for the nose.

Unlike sprays or messy rinses, we’ve created a comfortable, convenient way to clean and moisturize the nose, even when you’re on the go.

After all, the nose filters the air we breathe as it passes into our lungs. Which means, the nose is often the first stop for allergens, smoke, germs, and other particles in the air.

Keeping the nose clean is key to personal hygiene.

The Magic is in our Wand
Dual action leaflets for gentle cleaning
Soft, flexible & comfortable

Specially Formulated Antiseptic Gel

Great for travel
I am traveling in Europe for a month and using them everyday.
Suzanne F., Los Angeles CA
Verified Buyer

Thank you for this product!
It’s now part of my wellness routine, and a must when traveling. I always keep it in my bag to use on the go.
Bonnie D., San Francisco CA
